

CABINETS & FURNITURE MANUFACTURING • VIETNAM

Maple Furniture

Your full-service, trustworthy partner of cabinetry & furniture solutions for senior living, multi-family, hospitality, and luxury residential projects.

20+ PROJECTS DELIVERED • 5+ COUNTRIES EXPORTED TO • 17,000 m² FACTORY • 10 YEARS MANUFACTURING

A Trusted Manufacturing Partner

Maple Furniture is a full-service cabinetry and furniture manufacturer based in Southern Vietnam, delivering kitchen and bath cabinetry, bedroom and dining furniture, and contract furnishings for senior living communities, multi-family housing, hospitality, and luxury residential projects across the United States and beyond.

From BOQ and shop drawings through 3D rendering, prototyping, and manufacturing, our team manages each project end-to-end — engineering container loads and coordinating FOB/CIF delivery so furniture arrives ready to install.

WHAT WE DO

Five Disciplines, One Trusted Partner

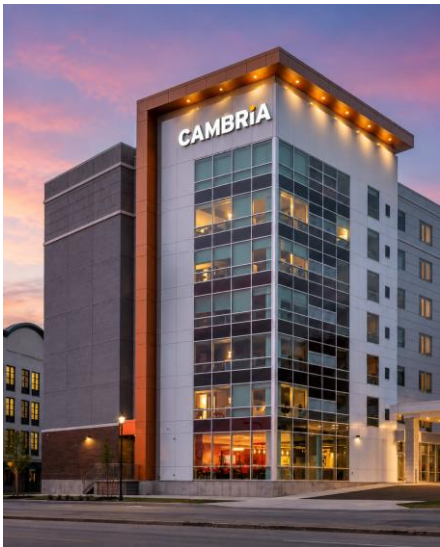

Multifamily Apartments

Kitchen & bath cabinetry engineered for fast, consistent multi-unit delivery.

Senior Living

Durable, easy-clean casegoods for assisted and independent-living communities.

Hospitality

Guest room casegoods and public-space furniture built to brand specification.

Public Spaces

Lounge, lobby, and shared-space furniture for communities and hotels.

Luxury Residential

Custom cabinetry and premium finishes for high-end private residences.

OUR FACILITY

Built for Scale, Engineered for Quality

TOTAL FLOOR AREA

175,000 sq ft of production, warehousing, and office space.

PRODUCTION LINES

9 dedicated lines covering CNC machining, cutting, edge banding, drilling, assembly, painting, packing, and export.

MONTHLY CAPACITY

10,000 cabinets per month.

WORKFORCE

150+ skilled production workers.

LOCATION

Chau Duc Industrial Park, Southern Vietnam — 20 minutes to Cai Mep Port, near Long Thành Airport.

OUR FACILITY

Inside the Production Floor

CNC machining, edge banding, assembly, and finishing — all under one roof

From Concept to Completion

01

BOQ & Cost Estimation

We review your drawings and requirements to build a transparent bill of quantities and cost estimate.

02

Shop Drawing Development

Detailed shop drawings are engineered for manufacturability and code compliance.

03

3D Rendering & Visualization

Photorealistic renders let your team confirm finishes and layouts before production.

04

Prototype & Mock-Up

A physical prototype is built and approved before full production begins.

05

Manufacturing & Delivery

Full production, quality control, container-loading, and on-time delivery.

Certified to International Standards

ISO 9001:2015

Certified quality management system.

FSC Chain of Custody

Responsibly sourced, traceable wood materials.

CARB Phase 2 / EPA TSCA VI

Low-formaldehyde-emission composite wood compliance.

CAL TB117-2013

California flammability standard for upholstered furniture.

BSCI / Sedex SMETA

Independently audited social & ethical compliance.

CE Marking

Applied where required for export markets.

Our Strategic Benefits to Clients

Competitive Pricing

Full pricing transparency at every stage of the project.

Custom Design Support

Dedicated support from concept through installation.

Faster Lead Times

Dual-location coordination speeds up delivery.

Value-Added Services

Packaging, shipping, and after-sales warranty included.

WHERE WE DELIVER

Engineered for Global Delivery

Recent project locations: WA · MT · CO · NY · AZ

Container-Optimized Shipping

Loads engineered to maximize container efficiency and protect finished goods.

FOB & CIF Delivery Terms

Flexible shipping terms to match your logistics program.

On-Site Installation Support

Coordination support through final installation.

5+ Countries Exported To

A growing footprint across multiple U.S. states and international markets.
